### DETAILED ACTION

1. This Office action is in response to the remand dated June 29, 2004.
2. Claims 1-19 are pending.

### ***Double Patenting***

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 1-19 rejected under judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-25 of Pat. No. 6,598,023. Although the conflicting claims are not identical, they are not patentably distinct from each other. It would have been obvious to those in possession of the invention defined by claims 1-25 of Pat. No. 6,598,023 to have added a card reader device, and a currency sheet dispenser. Those in possession of the invention would have been motivated to use a card reader device, and a currency dispenser as recited in claims 1-25 of Pat. No. 6,598,023 in order to permit user access to the ATM. One of ordinary skill in the art would have observed that the limitations of Applicant's claims 1-19 are already included in Pat. No. 6,598,023, as such they are an obvious variation of the invention, defined in the claims 1-25 of Pat. No. 6,598,023 see., *In re Karlson*, 136 USPQ (CCPA 1963).
